

Marine Biology BIOL-F-417 2018-2019

Week	Date	Time	Topic	Lecturer	Room
3	3/10/18	09:00-12:00	Oceanography, geology, history, and technology	PD	ULB: UC2.236
4	10/10/18	09:00-12:00	Pelagic biological processes	PD	ULB: UC2.236
5	17/10/18	09:00-12:00	Benthic biological processes	PD	ULB: UC2.236
5	19/10/18	14.00-18.00	Practical : Constraints on intertidal algae*	PD	ULB: UC2.236
6	24/10/18	09:00-12:00	Case study: the Southern Ocean + Global change in the ocean	PD	ULB: UC2.236
7	30/10/18	08:00-18:00	Excursion with "RV Simon Stevin" on the North Sea: VUB students	MK	Oostende
7	31/10/18	08:00-18:00	Excursion with "RV Simon Stevin" on the North Sea: ULB students	MK	Oostende
8	7/11/18	09:00-12:00	Practical : Data analysis of the North Sea excursion	MK	VUB: E1.4
9	14/11/18		No lecture		
10	21/11/18	09:00-12:00	Coral reef ecology	MK	VUB: aula QB
11	28/11/18	09:00-12:00	Connectivity of populations	MK	VUB: G1.023

*material needed: white paper sheets, black pencil, ruler

PD : Philippe Dubois (ULB)

MK : Marc Kochzius (VUB)

Course materials

Copies of the slides and syllabus

Available at <http://biomar.ulb.ac.be/staff/academics/philippe-dubois/marine-biology-biol-f-417/> for PD lectures

VUB «Fisheries » students only attend theory lectures (practicals and excursion on second semester for them).

Attendance to practicals and excursion is mandatory for other students.
